

CLIP DRIVER CD400

The Clip Driver CD400 is a productive attachment designed and manufactured for use on a railroad vehicle that can supply hydraulic power to the operating unit.

The Clip Driver can both clip and declip PANDROL FASTCLIPS and also has a sleeper lift for raising low-lying track sleepers.

As an option the clip driver can be equipped with fastening tools for PANDROL e-Clips. The sleeper lift cannot be used when fastening E-clips.

The frame structure is robust and the clipping and declipping units has high quality SKF bearings.
